JUDGE HANDY.

A Baltimorean, of Baltimore, shows a picture of the late Judge Handy, of Canton, and a sketch of his life. That paper says: "He was an eminent jurist, a high-toned gentleman, and in his walk and conversation illustrated the purity of the religion he professed. The world is made all the better for having furnished men, and their death cannot be too sincerely lamented, nor memory too warmly cherished. Leave for future generations a bright and shining example, and to relatives a priceless bequest of reputation without spot or blemish."

In Florida they are making biscuits and pastry from peanut flour.

The North Mississippi Conference of the M. E. Church South will hold its annual conference in Oxford sometime towards the latter part of next November. The meeting will be one of great importance to our town, as it will call together here fully one hundred ministers besides other visitors. As Oxford never does anything in a half-hearted way, our citizens will doubt, regardless of sectarian preferences, make ample provision for the entertainment of all who may come and thus fully sustain the well earned character for courtesy and liberal hospitality.—Fallon.

Observations in the country lately have somewhat strengthened our faith in the yield of the cotton crop our county. That which on the 1st of August presented the finest promise we ever saw, has been scorched by rust and drought rather below an average crop, but there are but few fields deserving to be classed as failures. Upon the whole there is a lack of late bolls, but the early and rich lands will generally be a pretty fair yield, and from present appearances will be gathered in good condition and as well as to grade.—Corinth Herald.

The experiment of making glass from natural glass has been successfully tried at Willsburg, W. Va. The new process is said to be much cheaper and to make better and cleaner glass.

It is said by officers of the Post-office Department that the new postal notes are proving a great convenience to lottery companies and to the many firms and corporations throughout the country which have been black-listed by the department and denied the privileges of the money order and registry system. These companies and firms are now having remittances made to them in postal notes which are payable to the bearer, and which do not come within the scope of the department's orders forbidding the payment of money orders to certain persons and firms.

Rev. Dr. A. G. Haygood, Oxford, Ga., General Agent of the John F. Slater Fund, is invited to deliver an Opening Address.

It is useless, we presume, to go into details as regards the aims and objects of this Association. To those who are not familiar with the organization it may be stated in general terms that its purpose is to advance the cause of education in our State. All teachers, as well as others, interested in this great work, are invited to attend and become members of the Association. An effort will be made in due time, to secure reduced rates on the different railroads leading to Jackson. It is believed also that hotels and boarding houses can be induced to reduce their rates to those in attendance.

J. A. SMITH, W. S. WEBB, L. T. FITZHUGH, EXECUTIVE COMMITTEE.

Mrs. Stonewall Jackson, who has returned from her Northern trip writes a card at Charlotte, N. C., in reply to comments from the Southern press upon her accepting the hospitality of Gov. Ben Butler. She says:

"While in Boston we were entertained at a hotel, and did not cross the threshold of Gen. Butler. Justified, however, compels me to say that he was wanting in no courtesy to the guests of his State. The people at Boston, and at every point we visited in the North, certainly gave evidence that my husband's name was held in such honor and reverence that my heart could not help be touched with tender and grateful emotion."

The stone, seventy-eight per cent tin, has lately been discovered in Birmingham, Ala. The lands where the find occurred are being developed, and much is expected from them.

IT WILL COST YOU NOTHING to get from Drs. Starkey and Palen, 1109 Girard Street, Philadelphia, an honest opinion in your case, if you are suffering from any chronic disease, Consumption, Catarrh, Neuralgia, Rheumatism, or nervous irritability and weakness. They are making wonderful cures with their new Compound Oxygen Treatment. Write to them and give a clear statement of your case. They will answer promptly as to the chances of a cure. THEY MAKE NO CHARGE FOR CONSULTATIONS. If, however, you do not wish to consult them at present, drop a postal card, asking for their treatise on Compound Oxygen, in which you will find a history of its discovery, nature, and action, and a large number of reports of difficult and desperate cases which they have treated successfully. It will be sent free.

We Don't See It.

We are told that the South is on a great boom. We can't see it among the farmers. We see however much to excite uneasiness if not alarm. The crops of corn and cotton are very short. The corn the poorest we have had for years. In a very short time, the cotton will be gathered and laborers can find nothing to do, because planters will not have the money to pay them. The fall pastures worthless, the sweet potato crop short and turnips very poor. It becomes every man to be on the lookout and save everything that will feed man or beast. The coming year promises to be the hardest through which the common laborers have ever passed. The drought of 1883 will long be remembered.—Dixie Boy.

CAS LIT LIFE ILLUSTRATED
The story in the title of a series of sketches of the shady side of life and character in the Great Metropolis, now being fully illustrated from scientific sketches in the

NATIONAL POLICE GAZETTE
of New York, which are realistic and faithful pictures from real life.—The illustrations are by the best scientific talent available, and the descriptions are from the pen of the most gifted journalist and brilliant writer in America, who, it is conceded, is a rival of that master hand at world-famous caricatures Dickens. It is sufficient to say that "New York's Gas Life" will present the most striking, vivid and truthful pictures of the under current of life in New York City that have ever been presented to the public.—The National Police Gazette at New York is for sale by all news-vendors, at 10 cents per copy, or at a reduced rate direct from the publishers.

Subscription price, \$3.00 per year. The National Police Gazette at New York, has no connection with any other publication of its name, and is not to be confused with any other publication of its name and appearance.

CAUTION—The public are cautioned against buying cheap imitations of the National Police Gazette at New York, and has the publisher's name printed on each copy. Retail sales should be made by post office order, dated on New York, or by registered letter to RICHARD B. FOX, Publisher, Cor. Spruce and William Sts., New York City.
